THE HAIR BEAUTY THAT BELONGS TO YOU

So many who have long known that hair beauty was certain to follow upon systematic hair care have been loath to commence what they mistakenly think too much trouble. Proper hair care means only keeping the scalp and hair perfectly clean by use of some preparation made for shampooing, not for general cleansing. You can enjoy the best that is known for about three cents a shampoo by getting a package of Cantor's from your druggist. Dissolve a teaspoonful in a cup of hot water and your shampoo is ready. After its use the hair dries rapidly with uniform color. Dandruff, excess oil and dirt are dissolved and entirely disappear. Your hair will be so fluffy that it will look much heavier than it is. Its luster and softness will also delight you, while the stimulated scalp gains the health which insures hair growth.—Advertisement.
